

Lafayette County School District is requesting renewal and appliance upgrades for existing network firewall solutions. Installation and configuration of the upgraded appliances must also be included. Our main campus (3-12) is currently using a redundant cluster M500 appliance and will upgrade to a single M570 device with a 3-year Total Security software license. Our lower elementary campus (PreK-2) is currently using the M570 appliance and needs a 3-year Total Security software license only. The vocational school campus is currently using the M200 device and will need to upgrade to a single M270 appliance with a 3-year Total Security software license. We are not looking to change from the Watchguard solution we already have, only renew our license and upgrade the no longer supported hardware appliance. However, we will entertain bids for equivalent solutions.

Line-item requests:

- 1 – Firebox M570 appliance upgrade w/3-year Total Security Suite (main campus)
- 1 – Firebox M270 appliance upgrade w/3-year Total Security Suite (vocational campus)
- 1 – 3-year Total Security Suite renewal for Firebox M70 (lower elementary campus)
- 1 – installation and configuration for all appliances and licenses

Sealed bids should be sent, in duplicate, to the address provided below. They should be received at the office by 1:00 pm on March 17, 2022. Bids will be opened at 2:00 pm on March 17, 2022. LCSD is not responsible for mail carrier delays.
